Abstract

© 2016, Pleiades Publishing, Ltd. New bryozoans are described from the Famennian of Southern Transcaucasia: *Petalotrypa myunkhbalaensis* sp. nov. and *Eridotrypella danzikensis* sp. nov. (order Trepostomata) and *Rectifenestella kadrluensis* sp. nov. and *R. famenniensis* sp. nov. (order Fenestrata). The paleobiogeographic relations that existed between Nakhichevan (Azerbaijan) and Armenia and other regions of Eurasia and the United States at the end of the Devonian are investigated.
