Kirkpatrick Baez X-ray optics for astrophysics: Recent status

Kazan Federal University, 420008, Kremlevskaya 18, Kazan, Russia

Abstract

© 2018 Astronomical Institute, Slovak Academy of Sciences. X-ray optics in Kirkpatrick Baez arrangement represent promising alternative to Wolter optics in common use. We present brie y recent status of design, developments, and tests of this kind of X-ray optics including Kirkpatrick Baez module developed and tested within the EU AHEAD project.

Keywords

X-ray astrophysics, X-ray optics, X-ray telescopes
